

ARAVIND BALAJI G.V.

MERN Stack Developer | Full-Stack Engineer

balajiaravind99@gmail.com +91 6381127676 linkedin.com/in/aravind-balaji99 Coimbatore, India

PROFILE SUMMARY

Results-driven **MERN Stack Developer** with **4+ years** of experience delivering scalable web applications, real-time systems, and secure backend services across E-commerce, B2B Marketplaces, Cryptocurrency Exchanges, and DeFi platforms. Expert in **React.js, Next.js, Node.js, NestJS, MongoDB, and TypeScript**, with a proven track record in WebSocket integration, microservices architecture, RESTful API design, and CI/CD automation. Available to join immediately.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frontend	React.js, Next.js, Redux, Tailwind CSS, SCSS/Sass, Bootstrap, Material UI,
Backend	Node.js, NestJS, Express.js, RESTful APIs, GraphQL, WebSockets, JWT, Microservices, Apache
Databases & Cache	MongoDB, MySQL, PostgreSQL, MSSQL,
DevOps & CI/CD	Docker, Jenkins, CI/CD Pipelines, Git, GitHub, GitLab
Tools	Postman, Swagger, VS Code, Chrome DevTools, ESLint, Prettier, npm,
Architecture	SPA, SSR/SSG, Component-Based Design, API Gateway, Modular UI, Web Security, SEO
Methodologies	Agile/Scrum, Sprint Planning, Code Reviews, Release Management, Clean Code Practices

PROFESSIONAL EXPERIENCE

Software Developer

June 2025 – April 2026

SolutionChamps Technologies Pvt Ltd — Coimbatore

- Built and shipped **10+ production-grade SPAs** using React.js and Next.js with server-side rendering, improving page load performance by up to **40%**.
- Architected and developed **reusable component libraries** with Storybook and Design Systems, cutting new feature development time by ~30%.
- Integrated RESTful APIs with dynamic data rendering, optimistic UI updates, and robust error-handling patterns for high-availability applications.
- Collaborated daily with backend developers and QA in **Agile/Scrum** sprints, consistently delivering features on schedule.
- Enforced code quality through **Git-based branch strategies**, pull request reviews, and automated linting pipelines.
- Diagnosed and resolved frontend performance bottlenecks using Chrome DevTools, achieving measurable improvements in Core Web Vitals.

Software Developer

January 2022 – June 2025

Osiz Technologies — Madurai

- Designed and implemented scalable **RESTful APIs** consumed by 100K+ users across crypto exchange and marketplace platforms.
- Optimised **MongoDB, MySQL, and Redis** through schema redesign, query tuning, and caching strategies, reducing average query time by **35%**.
- Reduced API response latency by **50%** on the Koinpark exchange via Redis caching, connection pooling, and rate-limiting middleware.
- Hardened application security by implementing **JWT, KYC, AML, and 2FA** authentication flows across multiple platforms.
- Led code reviews and enforced clean-architecture principles, reducing post-release bug reports by **25%**.
- Delivered DeFi modules (Token Swaps, Staking, Liquidity Pools) using **Solidity and Web3.js**, including MetaMask wallet integration and smart contract audits.

KEY PROJECTS

Wondersoft – Smart Retail Software & Multi-Store POS

Stack: React.js, Next.js, NestJS, Storybook, TypeScript

- Developed **50+ modular, reusable UI components** in Storybook, standardising UI development across 3 product lines.
- Built drag-and-drop POS workflows and Touch Screen interfaces, reducing cashier training time significantly.
- Architected **reusable NPM packages** shared across POS, E-commerce, and Touch Screen modules, eliminating code duplication.
- Configured ESLint + Prettier in CI, ensuring zero-lint-error builds across the entire monorepo.

Pepagora – B2B E-commerce Marketplace

Stack: Next.js, TypeScript, NestJS, MongoDB, Microservices

- Engineered a **scalable B2B marketplace** with advanced product filtering, vendor management, and bulk-order workflows.
- Boosted organic search traffic by **60%** through SSR/SSG optimisation and dynamic SEO meta-tag injection.
- Scaled backend with **NestJS microservices and API gateway** patterns, supporting high-concurrency vendor operations.

Koinpark – Cryptocurrency Exchange Platform (100K+ Users)

Stack: Node.js, Express.js, React.js, MySQL, Redis, WebSockets

- Built **real-time trading dashboards** with WebSocket feeds delivering sub-100ms market data updates to 100K+ users.
- Cut API latency by **50%** with Redis caching, query optimisation, and efficient connection management.
- Integrated **KYC, AML, and 2FA** compliance modules, achieving regulatory standards for a production crypto exchange.

Wateenswap – Decentralised Finance (DeFi) Platform

Stack: Solidity, Web3.js, React.js, Node.js

- Delivered Token Swap, Staking, and Liquidity Pool smart contracts with **MetaMask wallet integration**.
- Conducted smart contract **security audits and unit testing**, ensuring zero critical vulnerabilities at launch.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

2017 – 2020

Sourashtra College of Arts & Science, Madurai, Tamil Nadu

ACHIEVEMENTS

Achievements: Code Fighter of the Year (2022–23) | Star Performer of the Year (2023–24)

LANGUAGES

Languages: English | Tamil
